There was not a quorum, so a regular meeting could not be held. However the residents who came were able to express their concerns.

M Hotchkiss asked about specific portions of the sidewalk that are not completed. They will get completed.

D Fitzgerald of 22 Washington St asked about getting her tree cut down. The DPW will cut it down, she can order two new trees with the tree program this winter.

R Kiser was concerned about new water meters that may be leaking. We will put something in the newsletter asking residents to customarily check their meter for leakage.

Respectfully submitted,

Waneta Weiss
